Replimune to Present at the 38th Annual J.P. Morgan Healthcare Conference

January 7, 2020

WOBURN, Mass., Jan. 07, 2020 (GLOBE NEWSWIRE) -- Replimune Group Inc. (NASDAQ: REPL), a biotechnology company developing oncolytic immuno-gene therapies derived from its Immulytic™ platform, today announced that Robert Coffin, Ph.D., Chief Executive Officer and Director of Replimune, will present at the 38th Annual J.P. Morgan Healthcare Conference on Tuesday, January 14, 2020 at 5:00 PM PT at the Westin St. Francis Hotel in San Francisco, CA.

A simultaneous webcast will be available in the Investors section of Replimune's website at www.replimune.com. A replay will be available for 30 days following the conference.

About Replimune

Replimune Group Inc., headquartered in Woburn, MA, was founded in 2015 to develop the next generation of "oncolytic immune-gene therapies" for the treatment of cancer. Replimune is developing novel, proprietary therapeutics intended to improve the direct cancer-killing effects of selective virus replication and the potency of the immune response to the tumor antigens released. The Company's Immulytic ™ platform is designed to maximize systemic immune activation, in particular to tumor neoantigens, through robust viral-mediated immunogenic tumor cell killing and the delivery of optimal combinations of immune-activating proteins to the tumor and draining lymph nodes. The approach is expected to be highly synergistic with immune checkpoint blockade and other approaches to cancer treatment. Replimune intends to progress these therapies rapidly through clinical development in combination with other immuno-oncology products with complementary mechanisms of action.
