

## Replimune to Present at the Virtual SVB Securities Global Biopharma Conference

February 7, 2023

WOBURN, Mass., Feb. 07, 2023 (GLOBE NEWSWIRE) -- Replimune Group, Inc. (Nasdaq: REPL), a clinical stage biotechnology company pioneering the development of a novel portfolio of tumor-directed oncolytic immunotherapies, today announced that Philip Astley-Sparke, Chief Executive Officer of Replimune, will present in a fireside chat at the SVB Securities Global Biopharma Conference on Tuesday, February 14, 2023 at 9:20 AM ET.

A simultaneous webcast will be available in the Investors section of Replimune's website at [www.replimune.com](http://www.replimune.com). A replay will be available for 30 days following the conference.

### About Replimune

Replimune Group, Inc., headquartered in Woburn, MA, was founded in 2015 with the mission to transform cancer treatment by pioneering the development of novel tumor-directed oncolytic immunotherapies. Replimune's proprietary RPx platform is based on a potent HSV-1 backbone with payloads added to maximize immunogenic cell death and the induction of a systemic anti-tumor immune response. The RPx platform has a unique dual local and systemic mechanism of action (MOA) consisting of direct selective virus-mediated killing of the tumor resulting in the release of tumor derived antigens and altering of the tumor microenvironment (TME) to ignite a strong and durable systemic response. This MOA is expected to be synergistic with most established and experimental cancer treatment modalities, and, with an attractive safety profile the RPx platform has the versatility to be developed alone or combined with a variety of other treatment options. For more information, please visit [www.replimune.com](http://www.replimune.com).
